

Cree® CR-T Series

LED Retrofit Downlight

BETTER LIGHT. FASTER PAYBACK.

Higher Lumen Performance

The CR-T Series provides more lumens, perfect for high ceiling residential and commercial applications. The CR-T Series also offers higher efficacy and longer life than compact fluorescent lamps, with the beautiful light quality that you would expect from an incandescent.

High Colour Quality Without the High Price Tag

The CR-T Series features 90+ high CRI light, instant on, smooth dimming down to 5% and a deep recess that reduces uncomfortable glare and improves clarity, all with a fast payback. The beautiful high CRI light delivers exceptional colour quality, making colours appear more vibrant, rich and natural. These ENERGY STAR® qualified luminaires have a higher standard of performance, opening up commercial and residential opportunities for more incentives and rebates available from utilities.

Multiple Installation Options

Designed for retrofit applications as well as new construction, the new CR-T Series Downlights are perfect for 4, 5, and 6 inch recessed cans with E26 or GU24 sockets. These downlights are perfect for both indoor and outdoor applications and are rated for dry, damp, and wet locations.

CREE  TM

CREE® CR-T SERIES LED DOWNLIGHT

The CR-T Series LED downlights provide efficacy that is up to twice that of compact fluorescents, while achieving better colour quality with a CRI of 90+. Designed to easily install into existing IC or non-IC four-inch, six-inch and many five-inch housings, dimmable down to 5% with widely available traditional dimmers and ENERGY STAR® qualified, this product is ideal for use in both residential and light-commercial new construction and retrofit applications.

- Meets CEC Title 20/ Title 24 standards
- 50,000 hour lifetime
- Fits in existing 4" or 5/6" housing
- Instant-on technology
- Up to 87 percent energy savings against comparable incandescent lighting

Applications

Residential and Commercial Lighting

If you're looking to save on the cost of installing cans throughout new construction or a renovation, consider Cree's family of downlights. Our CR-T Series downlights are easily installed in most 4" or 6" recessed can light fixtures with either E26 or GU24 socket types, providing flexibility while saving you time and money.

Cree's downlights give you versatility as well as cost efficiency for large commercial residential spaces, such as hotels, apartment complexes and condos. They are an excellent choice for closets, storage areas, attics, hallways and more.

Healthcare

Cree's CR-T Series downlights are ideal for extended care facilities, such as nursing homes and rehabilitation centers. Our 90+ CRI light makes colours true and natural, minimizing both patient and staff fatigue while improving visibility for diagnosing and treating patients.

CR-T SERIES

4-inch

6-inch

Both E26 Edison based and GU24 sockets included for use with either socket type.

* Performance varies based on dimmer used. Visit cree.com/canada for dimmer compatibility information.

** Based on 3 hours average daily use.
